President's Message

Evangelical Community Hospital has long enjoyed a position of strength.

We are known for our high-quality, compassionate care that focuses on the unique and individual needs of each and every patient. As an organization, we've built a workplace culture that pushes employee and provider engagement to new heights, cultivates a true sense of family, and provides support to our people when, where, and how they need it most. We've expanded our system of specialty care practices to ensure we continue to meet the emerging health and wellness needs of those we serve, and we support community efforts that provide positive impacts well beyond the walls of our Hospital.

The last two years have been challenging, to say the least.

Despite the unprecedented tests associated with the pandemic, we remained focused on strategic priorities that will best position us to continue delivering the quality, individualized care our community has come to expect of us.

As we push to fully recover from this global health crisis, we find ourselves not just thriving but thriving with purpose.

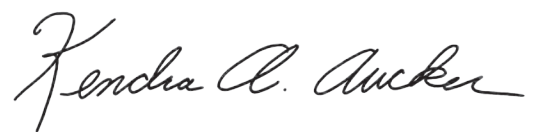

We are making the organization's single largest investment in information technology, transitioning to an integrated electronic health record that will improve internal efficiency and better support patients who migrate between healthcare providers in the region.

We are growing our physical footprint with new spaces for Imaging Services and Orthopaedics in the Susquehanna Valley Mall and pushing our services to the highest levels of quality through national certification and accreditation bodies.

We are doubling down on our commitment to our workforce, focusing on retaining the talented and experienced professionals who are already part of the Evangelical family, recruiting the highest quality new team members, and cultivating a workspace that embraces diversity, equity, and inclusion.

And we remain prepared to pivot and provide safe, effective care should COVID-19 once again ravage our community.

Please know that Evangelical is thriving and focused on remaining the independent, community Hospital you call your own.

Kendra C. Aucker

President and CEO

Always an Eye to Tomorrow

Over the last two years, the leadership of Evangelical Community Hospital has remained focused on positioning the organization to continue caring for the community well into the future even through the challenges of a global pandemic.

In fiscal year 2022, Evangelical continued its march to an integrated electronic health record, set the foundation for expanded services in an important market, secured valuable real estate contiguous with other owned property, and kicked off the expansion of one of its key service lines.

An Epic Transition

The Hospital began its transition to Epic, an integrated electronic health record (EHR) platform, prior to the onset of the pandemic and resumed the effort in fiscal year 2022.

The transition is one of the cornerstones in Evangelical's long-term strategy to remain an independent, community hospital. Moving to a fully integrated EHR will improve staff and provider efficiency across the organization—from clinical interactions to processing laboratory testing results, billing, and everything in between.

"This project truly impacts every corner of this organization," said Dale Moyer, Vice President of Information Systems and

Chief Information Officer. "It's going to be a huge lift for our employees and providers, but the end result will be a system that works for all stakeholders—clinical staff, support staff, and most importantly our patients."

In addition to the integration of internal systems, the project includes a transition to a more intuitive and user-friendly patient portal known as MyChart. Patients will be able to request prescription renewals, view test results, send messages to providers, and eventually request appointments online.

Over the last several years, the Hospital has paused its IT investments as senior leadership and the Board of Directors mapped out the organization's strategic direction. In fiscal year

2023, Evangelical will go live with Epic, an effort that will bring the organization's IT systems and hardware up-to-speed with the level of care its employees and providers are delivering to patients and the spaces in which that care is being provided.

Expanding in Selinsgrove

As part of its continuing efforts to ensure the communities it serves have convenient access to a variety of important healthcare services, Evangelical launched two facility-related efforts in fiscal year 2022.

First, the Hospital successfully leased space in the former Sears store at the Susquehanna Valley Mall adjacent to other healthcare providers already established in the mall. In addition, Evangelical purchased the building at 21 Susquehanna Valley Mall Drive.

The Hospital plans to renovate the space and move SUN Orthopaedics of Evangelical's Selinsgrove location and the Selinsgrove Imaging Center from the facility at 21 Susquehanna Valley Mall Drive to the mall.

"We are excited about the opportunities these projects present for our patients in the Selinsgrove area," said Kendra Aucker, President and CEO, Evangelical Community Hospital.

"The leased space in the mall provides convenient access for patients needing orthopaedic care or imaging services, particularly those already seeking healthcare services from other providers at that location. And the location along Susquehanna

Valley Mall Drive affords us a fantastic opportunity to provide expanded access to a variety of specialty practices and services in the Snyder County region."

At the Heart of it

Evangelical enjoys a well-earned reputation for placing its patients at the center of everything it does.

Recognizing the growing need for Cardiovascular Services, the Hospital is expanding its Heart and Vascular Center in Lewisburg. The project includes shifting the central corridor in the Professional Office Building to the north side of the building and expanding the Center to accommodate more patients and more providers.

"Heart and Vascular was the only service line in fiscal year 2022 to exceed pre-pandemic volumes," said Aucker. "Clearly, people in the community need high-quality cardiovascular care, and we're committed to improving their access to this life-changing and life-saving care."

A World of Possibilities

When the Baylor-Hamm Companies announced they were closing the iconic Country Cupboard Restaurant and Gift Shops along Route 15, Evangelical leaders immediately recognized the strategic opportunities associated with real estate along the busy highway and contiguous with other tracts of Hospital-owned property.

"We don't have any immediate plans for the former restaurant and gift shops," said Aucker. "What we do know is having this property and first right of refusal on surrounding businesses gives us a level of flexibility we would not have without it."

New Certification Takes Hip and Knee Care to the Next Level

In early 2022, Evangelical was recognized as a DNV certified Hip and Knee Replacement Center. The Hospital's hip and knee replacement program is made possible through the collaborative efforts of SUN Orthopaedics of Evangelical, Surgical Services, the inpatient Center for Orthopaedics team, and Rehabilitation Services of Evangelical.

"This certification is a huge accomplishment and speaks to the quality of care that we provide our patients," said Kendra Aucker, President and CEO of Evangelical. "Not only does it represent excellent patient outcomes and low complication rates, but it also signifies the exceptional level of care our Hospital provides for those undergoing hip and knee joint replacement."

The DNV Hip and Knee Replacement Program Certification, based on standards set forth by and considering the guidelines of the American Academy of Orthopedic Surgeons, recognizes program excellence in patient care and outcomes.

DNV certification as a Hip and Knee Replacement Center validates the Hospital's excellence across the spectrum of hip and knee replacement care, from diagnosis to treatment, rehabilitation, education, and outcomes.

"The certification validates that Evangelical has the resources and commitment to provide the best possible care for hip and knee replacement—not only while under direct care but also through needed support and education so patients can recover at home safely for the greatest success," said Charles Cole, MD, Surgeon, SUN Orthopaedics of Evangelical.

Members of the Hospital's rehabilitation team continued to work with patients through the pandemic in the areas of physical, speech, and occupational therapy. Those pictured are just a few of the many serving patients through the Hospital and practice settings. Rehabilitation is integral in the recovery of orthopaedic surgical patients.

Pictured left to right: Carey Napp (physical therapy), Sara Cooper (occupational therapy), Zoe Heinke (occupational therapy), Kyle Swartzlander (physical therapy assistant), Gretchen Walter (physical therapy assistant), and Chris Wenda (physical therapy).

Our Certifications and Accreditations

“We’ve always been proud of what we’ve been able to accomplish through our hip and knee joint replacement program. This certification is an endorsement of a program that we know works well for our patients.”

The patient-centered program consists of having the right equipment, personnel, and training to exhibit excellence in orthopaedic surgery within the scope of hip and knee replacement and related procedures. Following surgery, the program is enhanced by well-educated staff who understand the details of caring for elective hip and knee joint replacement patients.

Cancer Program

- Reaccreditation from the Commission on Cancer, a program of the American College of Surgeons

Hospital Emergency Response

- StormReady® status from the National Weather Service

Imaging Services

- Ultrasound—Accreditation by the American College of Radiology
- MRI—Reaccreditation by the American College of Radiology

The Family Place

- VON Center of Excellence in Education and Training for Infants and Families affected by Neonatal Abstinence Syndrome Award

Cardiovascular

- Percutaneous Coronary Intervention Program—Reaccreditation from Corazon, Inc.

Imaging (Hospital and Selinsgrove)

- Vascular Testing (Peripheral Venous Testing, Peripheral Arterial Testing, and Extracranial Cerebrovascular Testing)—Reaccreditation from the Intersocietal Accreditation Commission

Laboratory (Hospital, Cardiopulmonary Services, and Oncology Lab-Medical Park)

- Blood Gas, Clinical and Anatomic—Reaccreditation by the College of American Pathologists

Primary Stroke Center

- Recertification from DNV

Echocardiography

- Adult Transesophageal Testing—Accreditation added to existing Echocardiography Accreditation by the Intersocietal Accreditation Commission

Endoscopy Center

- Accreditation by the Accreditation Association for Ambulatory Healthcare, Inc.

Stroke Program

- Get With The Guidelines-Stroke Gold Plus Quality Achievement Award with additional honors of Target: Stroke Honor Roll Elite award and Target: Type 2 Diabetes

Purposeful Conversations Drive Evangelical's Family Feel for Employees and Patients

Hospital celebrations had to adapt during pandemic status but remained an important way of recognizing the work family as part of Evangelical's culture. Here employees enjoy catered picnic to-go boxes during the summer employee picnic day.

Vital to a successful workforce is understanding employee needs in balancing work and home. Creating a workplace atmosphere that values employee needs and offers them support is just as valuable as pay and benefits.

“With employees spending the majority of their waking hours in the work environment, it is essential for the Hospital to be a welcoming place where their ideas and efforts are valued and openly appreciated,” said Rachel Smith, MPA, SHRM-SCP, Vice President of People and Culture.

The global pandemic stretched everyone to their limits mentally, emotionally, and physically while caring for the community. For Smith, the People and Culture team, and Hospital leadership, it was time to reacquaint themselves with a workforce that has a new perspective on what they want out of their work and their workplace.

Getting Back in Touch with the Workforce

In May 2022, an employee/provider engagement survey was introduced through Press Ganey, where all providers and employees were invited to share their feedback on key areas within the work setting. Engagement is measured by a combination of loyalty, pride, and willingness to recommend the Hospital as a good place to receive care and work.

Of those who took the survey, 77% of employees and 88% of providers feel engaged, placing Evangelical in the 52nd and 70th percentile, respectively, in the Press Ganey database.

These numbers will be used as a baseline for future surveys to see if the needle on engagement moves in the coming years.

Employees indicated they strongly feel that the organization cares about its clients/patients and contributes to the community.

100% of providers feel their clinic/group provides high-quality care and service.

93% of providers feel their work is meaningful and makes a real difference.

70% of employees feel they are able to disconnect from work communications and that the organization is providing mental and emotional health resources to employees.

Using the survey results, leadership plans to take a deep dive into the data at the organizational and departmental levels, creating action plans to take advantage of the organization's greatest opportunities.

What is clear from the 2022 survey is that the entire workforce feels patients are well cared for at Evangelical Community Hospital.

Recruitment and Retention Becomes a Primary Focus

Prior to the pandemic, the Hospital was beginning to see a shift in recruitment of staff. Key healthcare professions, including nursing, medical lab scientists, respiratory therapists, EMTs, and paramedics, were on the decline based on the number of students entering those specialties, while the need to fill open positions was growing.

The pandemic exacerbated the problem when long-term employees in health professions began to exit the field—from burnout, early retirement, and desire for a career change—leaving even more open holes in plans for full coverage. Evangelical and other healthcare organizations across the nation found themselves in the position of seeking to fill open job opportunities with an even more limited resource pool of new graduates and active, experienced job seekers.

To expand the Hospital's recruitment approach, a partnership was formed with Hueman—a recruitment outsourcing group—whose main mission is to connect the right people with the right job at the right time. The collaboration with Hueman focuses on developing relationships with passive candidates who may not know about healthcare-related positions or Evangelical as an employer.

As fiscal year 2022 came to an end, an innovative vision was being realized. After nine months of preliminary work, the Hospital solidified a partnership with PassportUSA, an international talent group that works to fill career opportunities in the United States with internationally trained healthcare professionals.

In the United States, opportunities are vast while the talent pool is declining. In the Philippines, it is the exact opposite. Exceptionally qualified healthcare workers are too numerous for the number of positions available.

By working with PassportUSA, the Hospital will be able to bring equally qualified nurses and medical lab scientists to the United States for a three-year work commitment with the opportunity to join the Evangelical family of employees permanently at the end of their contract. The first anticipated nurse from this program was set to arrive at the beginning of fiscal year 2023.

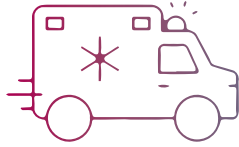

Survey Focus Areas

Newly Introduced Programs in Fiscal Year 2022

EMT Trainee Program

This four-month, fully funded EMT training program allows participants with a high school diploma, GED, or an approved secondary school co-op program to earn a paycheck while preparing for a new career. A bonus is guaranteed employment upon successful completion of training and EMT certification.

The first round was funded through the PAsmart grant, an offering of the Pennsylvania Department of Education. Moving forward, the existing program will expand from Penn College to also include Harrisburg Area Community College.

Nurse Emeritus

The Hospital created the Nurse Emeritus role to lead newly graduated RNs through a relationship-based, educational program that guides new nurses as they encounter real-life clinical situations. The first two Emeritus RNs were hired and began mentoring Evangelical's newest nurses in 2022. Emeritus Nurses will be part of the existing Nurse Residency program, which is designed to support the development of technical skill, insight, and confidence of novice nurses through mentorship, with a goal of developing intuitive problem-solving skills.

Nursing Assistant Training Program

This two-week training program is designed for individuals with limited to no prior experience but who have a strong desire to work as part of Evangelical's healthcare team. The course offers intense, short-term classroom training, and those who successfully complete the program are given priority for hire across all shifts, units, and status (full-time, part-time, or per diem).

Diversity, Equality, and Inclusion Explored

In September 2021, the Hospital was awarded a grant from the Southern Tier Community Fund at the First Community Foundation Partnership of Pennsylvania to support its commitment to diversity, equity, and inclusivity (DEI) training.

"These grant dollars will enable us to continue educating our workforce on important topics impacting our ability to compassionately care for people from diverse backgrounds and experiences," said Kendra Aucker, President and CEO of Evangelical Community Hospital.

The funds support Evangelical's commitment to creating safe spaces where employees, volunteers, patients, and community partners can present all dimensions of themselves.

The funds also further extended learning for management staff, Board members, and physician leaders to support the organization's commitment to diversity, inclusion, and equity.

In March 2022, management staff were led through a special session of open-minded, DEI-focused conversations by Amita Mehta, Business Strategist. Through the sharing of Mehta's personal experiences of being a woman, a refugee, and a member of the LGBTQ community while carving out a career as a high-level executive, she was able to relay the struggles that can be felt when trying to balance work while remaining true and authentic as an individual.

To bring a more at-home perspective, Board member Susan Fetterman, and Malcolm MarFan, MD, Hospitalist, took part in a town hall discussion led by Mehta about their personal experiences of career, inclusivity, and the challenges they faced along the way.

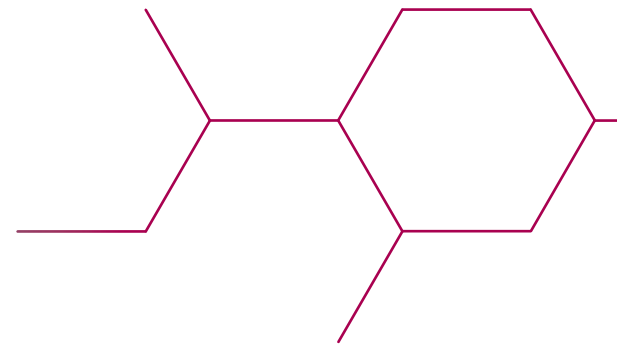

With the air clear to share in a safe zone, staff broke out in small groups, which generated good conversation around the ideas of DEI.

In the report out after the group discussions, the room heard ideas and thoughts that will define not only leadership perspectives but also where the organization needs to go to be more diverse, equitable, and inclusive.

Adaptability and Desire to Learn Set the Stage

Being open to new ideas sets the stage for the success of Evangelical in the future. Over the past two years, the workforce has shown the flexibility and adaptability they are capable of in some of the most challenging and ever-changing situations.

With the patient constantly at center, staff, providers, and leadership continue to demonstrate the resiliency of Evangelical as an independent Hospital and the desire to be a welcoming and safe place for all who walk through its doors.

Next Steps Toward a DEI Culture

- Formally establish an internal diversity, equity, and inclusion council that will establish metrics to measure success.

- Create new learning opportunities for enhancing cultural competency throughout and at all levels of the organization.
- Identify opportunities to improve diversity in Board and leadership positions.
- Enhance recruiting, hiring, and development opportunities with a focus on diversity.
- Use feedback from the Patient/Family Advisory Council, employee/provider engagement surveys, and other data sources to inform strategies for the Hospital moving forward.

Amita Mehta, of Amita Mehta Possible Consulting, leads a town hall discussion with Susan Fetterman, Board member, and Malcolm MarFan, MD, Hospitalist, focusing on topics of diversity, equity, and inclusivity.

COVID-19—Another Year of Response and Learning

With the global pandemic extending into another year, the Hospital continued to respond in fiscal year 2022. Highs and lows continued in that response as teams pulled together during patient surges. As a community hospital, Evangelical excelled in its efforts to care for patients, to find innovative solutions for challenges, to work with employees on mandates, and to be a voice for hospitals with area and state leaders.

Innovation at its Best

The Hospital led one of the 10 highest-scoring projects in a statewide awards program spotlighting how Pennsylvania hospitals served their communities during the COVID-19 pandemic.

The Hospital and Healthsystem Association of Pennsylvania's (HAP) COVID-19 Response Innovation Awards showcase the innovative teams, solutions, and projects that have helped shape the healthcare community's response to, understanding of, and resilience to the pandemic.

Evangelical was recognized for its early institution of COVID-19 testing for the community through an alternative testing site. The quick establishment of the site answered the testing needs of the community, with a convenient and safe drive-through method, while making it possible to separate those needing testing from those seeking treatment for COVID-19 and other illnesses in the Emergency Department.

Lisa Davis, Director of the Pennsylvania Office of Rural Health, presents Kendra Aucker, President and CEO, with the Rural Health Leader of the Year award.

The COVID-19 testing site at Evangelical, which began behind Plaza 15 in the early days of the pandemic response and later moved to a dedicated site at St. Mary Street in Lewisburg, was the longest-running public testing site in the region. It afforded individuals a convenient drive-through option, safe from the elements, in a no-appointment-needed environment. From inception on March 19, 2020, until closing on February 19, 2022, due to lower volumes and greater availability of home testing kits, Evangelical's COVID-19 testing site collected 25,614 samples.

HAP received nearly 80 entries for the award. The blinded applications were evaluated by a group of independent judges from Pennsylvania and across the nation.

Rural Health Leadership

Kendra Aucker, President and CEO, was presented the Rural Health Leader of the Year award from the Pennsylvania Office of Rural Health (PORH) during fiscal year 2022. The award recognizes an exemplary health program that addresses an identified need in a rural community utilizing unique, creative, and innovative approaches.

In this case, the area lauded was Aucker's commitment and dedication to leading COVID-19 testing in the community and for her support of staff at the Hospital in one of the most challenging times in recent healthcare history.

The nomination noted, "When vaccines became available, the Hospital was scheduling appointments for frontline workers and moved to offering vaccines to the public as quickly as possible through weekly clinics. Kendra Aucker was a vocal proponent for infection prevention efforts, including masking, social distancing, and staying home when sick. She also served as an advocate for local politicians and policy leaders, media sources, and more on the status of healthcare during the pandemic and the need for strong support of efforts to stop the spread of COVID-19."

Aucker was presented the award at the Hospital on November 4, 2021, by Lisa Davis, Director of PORH and outreach associate professor of health policy and administration at Penn State. Aucker noted during her acceptance of the award that while she may be the individual being recognized, the staff and providers of the Hospital as a whole resulted in the successful approach to the pandemic. "I'm standing here because when the obstacles felt insurmountable, everyone on every level at the Hospital rose to the challenge and found solutions."

Mandates Impact Employee Choice

As COVID-19 vaccinations became more readily available to healthcare workers and the community-at-large, the Hospital stood firm in its recommendation that those who were eligible should receive the vaccine. Though strongly recommended, the Hospital also realized the importance of choice in the matter and gave employees the option of choosing vaccination or being tested regularly before reporting for work if they were not vaccinated.

Daniel Mulligan, CRNA, was part of the first group of employees who chose to receive the COVID-19 vaccine when it arrived in December 2020.

In the fall of 2021, that choice was compromised when the Centers for Medicare and Medicaid (CMS) delivered a vaccine mandate for healthcare workers that was to go into effect by January 4, 2022. Hospitals not in compliance could lose essential CMS funding. With the Hospital relying on CMS for approximately 60% of its gross revenue, a crossroads had been reached.

As a response, Hospital leadership continued to encourage all employees to be vaccinated and set up additional vaccination clinics to make receiving the vaccine more convenient and accessible. An enrollment period was provided for employees who wished to remain unvaccinated to submit a request for exemption from vaccination based on disability, medical conditions, or sincerely held religious beliefs. Each request was reviewed on a case-by-case basis and exemptions were provided when necessary.

After several delays due to appeals of vaccine mandates on every level, the Hospital pressed forward with its plan of vaccination or exemption with regular testing. By implementation date, 13.5% of the workforce had successfully applied for a religious or medical exemption or were exempt due to a 100% remote work assignment and 86.5% of employees had been vaccinated.

As of March 2022, all new hires must have completed the initial COVID vaccine series or have an approved exemption before their first day of employment.

Sharing Feedback with State Health Leaders

In April 2022, then-Acting Secretary of Health with the Pennsylvania Department of Health, Keara Klinepeter, spent a morning in private meetings with Hospital staff to discuss rural healthcare challenges as well as the COVID-19 pandemic response, as it related to state and hospital interaction.

The discussions were a prime opportunity to give a very real view of the impact the pandemic had on the ability to provide care from the Evangelical perspective to state leaders in the position to affect change.

In attendance that day, in addition to Evangelical leadership, were State Representative Lynda Schlegel Culver, State Representative Jeff Wheeland, and Ann Kaufman, District Director representing Congressman Fred Keller's office.

The frank conversations allowed Klinepeter to gather information that the Department of Health may not have thought of in their planning or implementation of the COVID-19 response.

Looking to the Future

As the fiscal year ended, Hospital staff were able to feel relief from patient surges, begin to take much needed time off, and resume to a more normal pace of healthcare. What did remain in place was the requirement to mask when inside any healthcare facility as imposed by the Pennsylvania Department of Health.

Kendra Aucker, President and CEO, gives State Representative Lynda Schlegel Culver and Keara Klinepeter, then-Acting Secretary of Health, Pennsylvania Department of Health, a tour of the new Critical Care Unit. During the tour, she discussed how the new space contributed to the way the Hospital was able to manage the sickest of COVID-19 patients during patient surges.

The Ambassador Challenge

Raised \$159,046 to support the Evangelical Care Fund

Philanthropy and Donor Relations introduced a new way to support the Hospital's commitment to the community in fiscal year 2022 through the inaugural Ambassador Challenge.

The Ambassador Challenge featured community representatives promoting the Hospital's mission and encouraging charitable giving as ambassadors for the Hospital. Denise Haddon of Selinsgrove, Timm Moyer of Watsontown, and Leslie Temple of Lewisburg were the ambassadors of this inaugural campaign in 2022.

In addition to monies raised by the ambassadors, an online auction brought in over \$7,000 and a Weis Shopping Spree raffle garnered over \$2,000. Winner of the 2-minute shopping spree was Mary Ann Hamilton of Lewisburg, who during her run through the Lewisburg Weis, filled her cart with \$960.69 worth of groceries. Other winners of the raffle

included Ryan Ehmann of Milton, who won a \$100 Weis Gift Card, and Samantha Mahaffey of Williamsport, who won a \$50 Weis Gift Card.

The 2022 Ambassador Challenge was generously supported by the lead "Emissary" sponsor, Fulton Bank, as well as Griffith Development, McNees Wallace & Nurick LLC, Mifflinburg Bank & Trust, Weis Markets, and other businesses and organizations.

All proceeds from the Challenge support the Care Fund, which provides a foundation of financial support for Community Health and Wellness screenings, events, and education; Mobile Health of Evangelical; Evangelical Regional Mobile Medical Services (ERMMS), the Hospital's paramedic and EMT response; The Family Place, the Hospital's obstetrics unit; Hospice of Evangelical, end-of-life care; and more.

The Ambassador Challenge proved to be a resounding success, rallying the community together to raise substantial funds to support Evangelical's valuable programs and services.

"This new challenge from concept to reality was made possible by a committee of people with a passion for the Hospital and a common goal of finding a new way to pull people together in much the same way as our staff pulls together daily to care for our patients and members of the community," said Donna Schuck, Associate Vice President of Philanthropy and Donor Relations.

"We will be holding the Challenge again in the future as part of our special events fundraising."

The Ambassador Challenge committee included Brandy Kift, Chair; Eustacia Muir, Co-Chair; Jeanne Bernt; Chad Evans; Kristen Moyer; and Stacey Napoli, along with staff members Donna Schuck, John Allison, Drew Kauffman, Krista Stephens, and Bridgette Thompson.

Why we give...

Barb and Ed Mihalik *Selinsgrove*

“Evangelical’s emergency responders, Emergency Department team, and skilled surgical providers were all there in the moments I needed them most. So when I was asked to support the Hospital’s 2022 Ambassador Challenge, I was all in!”

– Barb Mihalik

Barb was instrumental in helping Leslie Temple, one of the Challenge’s three Ambassadors, in exceeding her fundraising goals and making this inaugural program a great success. Both Barb and her husband, Ed, expressed their great appreciation for Evangelical and the compassionate and expert care they’ve received at the Hospital over many years.

Cookin' Men

Raised \$53,327 for the Thyra M. Humphreys Center for Breast Health

In its 11th year, Cookin' Men, held at Rusty Rail Brewing Company, Mifflinburg, had approximately 180 guests trying sample-sized culinary delights created by local chefs. Guests enjoyed 16 tastings served up by 18 chefs or chef-partner teams.

The 2021 event was generously sponsored by Weis Markets, Geisinger, Asbury RiverWoods, Baker Tilly, Prudential, and 13 others.

Declared Top Chef was Eric John representing Rusty Rail Brewing Company, who raised \$7,350 by the deadline. Eric and his brother, Paul John, served the crowd a spicy chili combo with cornbread.

Other top fundraisers included Rick Schuck, Jim Carpenter and Jared Frank, Drew Kauffman, Domenico Napoli, Paul Burkholder, and Bob Garrett, who all raised \$1,000 or more.

Why I give...

John Cooper
Lewisburg

"I've been fortunate not to need extensive care at Evangelical, but it's good to know they are there and continuing to advance their services should I ever need them."

John and his son, Shawn, recently named a patient room in the Hospital's new addition in memory of John's wife, Betty McKissick Cooper; his parents, Wilbur and Muriel Cooper; and his in-laws, Park and Kathryn McKissick. This gift was a way for John and Shawn to leave a lasting legacy and memorialize family members for years to come.

Gifts to Support Operations in Fiscal Year 2022

Total: \$795,251

Why I give...

Jackie Mast, RN II
One-Day Surgery

“I think it’s important—
regardless of whether you work
here or not—to give back to our
community Hospital. It benefits
each of us and our entire community.”

*Jackie is one of more than 1,000 employees
and volunteers who have joined the HERO Club, Evangelical’s
employee and volunteer giving club. HERO Club contributions
support a wide variety of facility, programming, and service
improvement initiatives, including the recent PRIME project.*

Golf Classic

176 golfers raised \$46,250 for Evangelical Regional Mobile Medical Services (ERMMS)

Evangelical Community Hospital hosted its 35th Golf Classic on Friday, August 6, 2021, at the Bucknell Golf Club in Lewisburg. The event was a great success with 176 participating. The event marked the most successful year for fundraising in the tournament's history.

Quandel Construction Group, Inc., served as the main sponsor of the event.

Awards were given to the top teams in the morning and afternoon flights.

Morning winners were: first flight—Bucknell University, Balfurd Linen Service, and W&L Subaru and Mazda with second flight winners being the foursome of Lawton Insurance Agency/Susquehanna Life Magazine, Fulton Bank, and Cornerstone Advisors. Afternoon winners were: first flight—Mifflinburg Bank & Trust, Purdy Insurance Agency, and 3B Cleaning & Floor Care with second flight

winners being Michael Kahl Insurance, Member's Choice Federal Credit Union, and Commercial Acceptance Company.

Held annually, the Golf Classic raises funds for life-sustaining treatments performed by trained paramedics and emergency medical technicians at the scene of an emergency. These emergency responders also provide vital patient information to Emergency Department personnel before the patient arrives at the Hospital.

Why we give...

Pauline Ulrich,
Mary Carnathan, and Betsy Moll
The Mustard Seed, Selinsgrove

“Hospice of Evangelical provides a great support system for people, especially during a time when you’re going through such a difficult experience with a loved one. You need all the backup you can get.”

– Pauline Ulrich

Mary, Pauline, and Betsy (pictured with Kathy Paul, Director of Hospice of Evangelical) have firsthand experience with the positive impact Hospice of Evangelical has on patients and their loved ones. All three women serve at The Mustard Seed, a nonprofit organization in Selinsgrove that semi-annually donates all proceeds to charitable purposes. The Mustard Seed has been supporting Hospice of Evangelical for 19 consecutive years and has donated over \$40,000.

Charles Fasano, DO Memorial Lecture

May 25, 2022

Raised \$19,635 for future Charles Fasano, DO Memorial Lectures

Highly lauded Marty Makary, MD, MPH, public health researcher and Bucknell graduate, delivered the 11th annual Charles P. Fasano, DO Memorial Lecture on Modern Medicine's Transparency Revolution at the Campus Theatre, Lewisburg.

Dr. Makary is a New York Times bestselling author and healthcare expert at Johns Hopkins University. He writes for The Wall Street Journal and served in leadership at the World Health Organization. Dr. Makary is the recipient of the 2020 Business Book of the Year Award for his most recent book, *The Price We Pay*, which has been described by Steve Forbes as "A must-read for every American."

The event was made possible thanks to premier sponsorships by Evangelical Community Hospital, Family Practice Center, PC, VNA Health System, and gifts from the Fasano family, colleagues, and friends.

Financial Report

FY 2022

Evangelical Community Hospital continued to focus on positioning itself for the future in fiscal year 2022, despite a challenging economic landscape.

Rising labor costs, a slower than anticipated return of patient volumes, and record inflation worked to challenge Evangelical's net operating margin while repayment of COVID-19 advanced payments from the Centers for Medicare and Medicaid (CMS) and a weak investment market decreased cash on hand.

Of these challenges, rising labor costs—including significant increases in the utilization of contract labor, recruitment and retention incentives, and rising salaries—represent the highest hurdle facing the Hospital in its march back to a more normalized net operating margin.

It's a fiscal scenario being reported by hospitals and health systems across the state and nation.

In the face of these challenges, Evangelical doubled down on its long-term commitment to the health and wellness of the community—relaunching its transition to an integrated electronic health record (EHR), expanding its Heart and Vascular Center, and improving access to its services in the Selinsgrove area.

"It was a difficult year for us financially," said James Stopper, CPA, Vice President of Finance and Chief Financial Officer. "We continue to work to recover from the pandemic, and we're now doing so with the added financial pressure of rising labor costs. Yet, as an organization, we continue to move forward with key projects that will enhance our ability to care for the community."

The Hospital's transition to Epic, an integrated EHR platform, is the single largest Information Technology project in the history of Evangelical. The move, to be completed in fiscal year 2023, will improve staff and provider efficiency across the organization while providing a more seamless experience for patients as they navigate between healthcare providers in the region.

The Hospital also started several facility-related projects in fiscal year 2022 with the goal of creating new opportunities to drive patient volumes back to pre-pandemic levels. The projects are expected to be completed in fiscal year 2023.

The Heart and Vascular Center will be expanded to accommodate more patients and more providers. Heart and Vascular exceeded fiscal year 2019 volumes in fiscal year 2022, proving it's an area of growth and one of the Hospital's keys to regaining financial stability.

Evangelical is leasing space in the former Sears store at the Susquehanna Valley Mall and finalized the purchase of the building at 21 Susquehanna Valley Mall Drive.

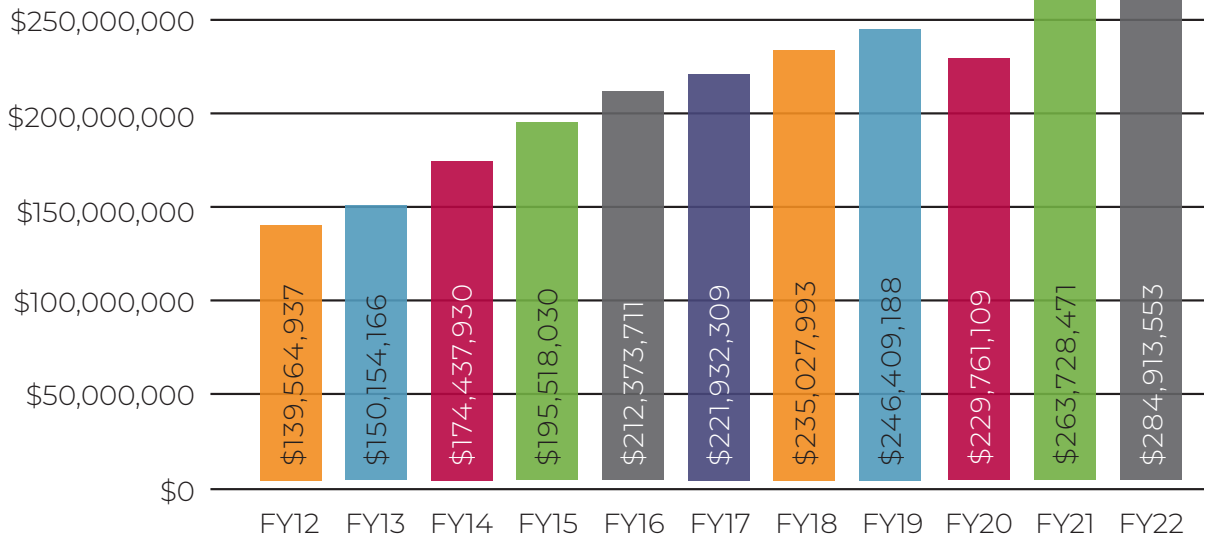

SUN Orthopaedics of Evangelical's Selinsgrove practice and the Selinsgrove Imaging Center will be moved from the facility at 21 Susquehanna Valley Mall Drive to the leased space adjacent to other healthcare providers in 2023.

After the move, Evangelical will explore expanding access to a variety of specialty practices and services at the 21 Susquehanna Valley Mall Drive location, strengthening care options for those in the Selinsgrove area.

Community Benefit Report

Bringing Health to those 55 and Older Full Circle

Community Health and Wellness at Evangelical Community Hospital introduced a new program in fiscal year 2022.

Known as Wellness 360, the group program is focused on the whole person and aimed at helping people age 55 plus to connect, learn, and live their healthiest lives. Membership is free and includes perks such as early notification of upcoming events, free health screenings, educational opportunities, and discounts at local businesses.

Monthly educational programs focus on topics related to health, aging, and living well. The sessions help to connect experts and resources within the community with group members, where they learn the key tenets of wellness and what is available to them in their own neighborhoods.

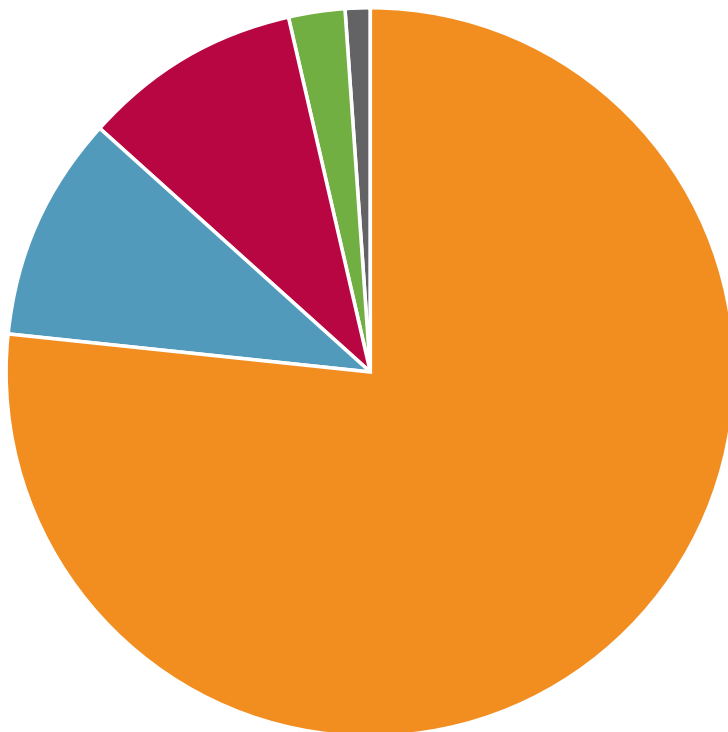

As a member of Wellness 360, participants have first access to screenings that are held at different

times throughout the year. Each screening gives individuals the power to make decisions about their health before conditions become harder to manage.

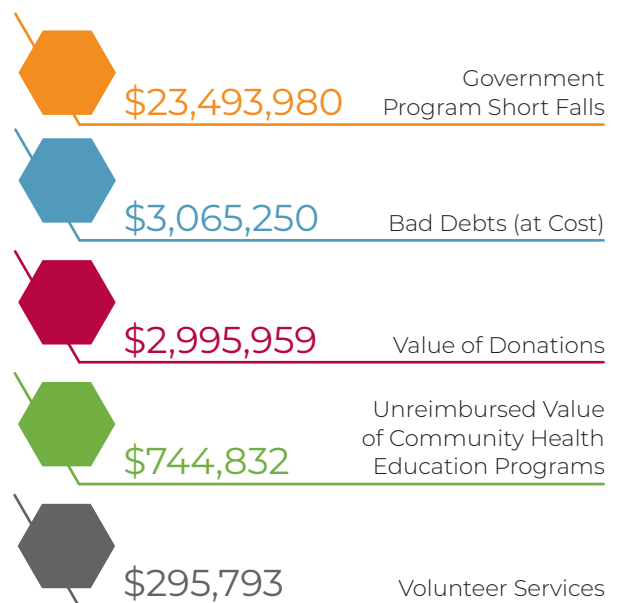

“For individuals 55 years and older, the key to living a life of quality and enjoyment is making mental and physical health a priority,” said Sheila

Packer, Manager of Evangelical Community Health and Wellness.

“Our goal is really to build a support network that brings people together who are looking to age well and open up doors to allow them to do that.”

Act 55 Uncompensated Services
